IN THE CLAIMS:

Make the following changes:

Sub E2
A1
1. (first amendment) A portable convergent miniaturized spray gun including a handle, said spray gun having a central passage for flowing liquid resin and a concentric passage relative to the central passage for flowing pressurized air, and a nozzle internal of said spray gun for discharging the liquid resin from the central passage, a double concentric tube assembly having an additional central passage in axial alignment with said central passage for receiving resin from said internal nozzle, an additional concentric passage relative to said central passage in axial alignment with said concentric passage, a fluid tip mounted on the end of said additional central passage defining a central orifice for discharging the resin flowing from said central passage and said additional central passage, an air cap mounted over said fluid tip and defining [therewith] with said fluid tip an air nozzle for flowing air into said resin stream discharging from said central orifice and defining an atomized convergent spray having a low pressure zone, said fluid tip including a circular shaped member abutting the inner

Q1. surface of said air cap and having flats formed thereon to define gaps between said air cap and said circular shaped member to allow air from said concentric passage to flow therebetween and mix with the resin to atomize the resin flowing out of said central passage and a dry powdered nozzle having angled flow passages for directing dry powder into the low pressure zone of said atomized convergent spray.

Sub Ed 2
Q2 6.(first amendment) A portable convergent miniaturized spray gun as claimed in claim 5 including a mixer disposed ~~[downstream]~~ upstream of said main body, a source of resin and a source of catalyst, a manifold, connection means for interconnecting said manifold with said source of resin and said source of catalyst to said mixer and a hose [interconnection] interconnecting said mixer with said spray gun.
